Score	58%	78%

INTERNSHIPS

Hornet Infotech | April 2024 - June 2026

- My role as a Web Developer Intern required a blend of creative thinking and technical execution. I was expected to write semantic HTML code, style components with modern CSS, implement responsive layouts using Bootstrap, and add interactivity through Javascript

PROJECTS

Agentic AI for civil sector | January 2026 - March 2026

- Agentic AI in the civil sector are autonomous systems that plan, decide, and act to complete government tasks end-to-end, not just answer questions. They process licenses and benefits, remove ghost welfare accounts, detect disease outbreaks early, predict infrastructure threats, and automate document workflows, giving citizens 24/7 service while cutting staff workload. This needs secure cross-agency data sharing and strong human oversight because errors can scale fast, but done right it shifts government from reactive paperwork to proactive services that find citizens before they have to ask.

WORK EXPERIENCE

wroots global | April 2026 - June 2026

- HR Executive and Recruiter:To hire the candidates and allocate them interview schedule.

ACHIEVEMENTS

- best poster award in B.Tech / B.E.
